

SAFOORAH SABIR

Statistician | Researcher | Senior Lecturer

Phone: (+92) 302 8907976 | Email: sabirsafoorah@gmail.com | Islamabad, Pakistan

LinkedIn | ORCID | Google Scholar | ResearchGate | GitHub

Nationality: Pakistani | Date of birth: 06 February 1999 | Gender: Female

ABOUT ME

I am an analytical statistician and research scholar in Statistics, skilled in advanced data analysis and statistical modelling. I am passionate about leveraging data insights for informed decision-making across diverse fields.

EDUCATION

Allama Iqbal Open University, Islamabad | 09/2025 - Current

Doctor of Philosophy in Statistics

Field of study: Statistics

Quaid-i-Azam University, Islamabad | 10/2021 - 04/2024

Master of Philosophy in Statistics

Thesis: A Comparative Analysis of Machine Learning Models for Predicting Precipitation in Islamabad

Developed precipitation prediction models for Islamabad (1981-2021) using statistical and machine-learning techniques to support environmental monitoring and planning.

International Islamic University, Islamabad | 09/2016 - 01/2021

Bachelor of Science in Statistics

Field of study: Statistics

WORK EXPERIENCE

Islamabad Medical & Dental College, Islamabad | 06/2026 - Current

Senior Lecturer

Riphah International University, Islamabad | 03/2026 - 06/2026

Senior Lecturer

Bahria University, Islamabad | 09/2025 - 01/2026

Visiting Lecturer

Gallup Pakistan, Islamabad | 01/01/2025 - 30/04/2025

Senior Data and Statistical Analyst

Higher Education Department, Government of Punjab, Rawalpindi | 01/11/2024 - 30/04/2025

CTI Lecturer

Federal Urdu University of Arts, Science and Technology, Islamabad | 10/2024 - 02/2025

Visiting Lecturer

PUBLICATIONS & MANUSCRIPTS

International Journal of Climatology | 2024

Estimating Extreme Drought Risk Through Classical and Bayesian Paradigms

Published article. DOI: 10.1002/joc.8705

2026 - Current

A Comparative Analysis of Machine Learning Models for Predicting Precipitation in Islamabad

Manuscript in preparation

2025 - Current

Time Series Forecasting of Meteorological Data Using Deep Learning Techniques

Manuscript in preparation

2025 - Current

Bayesian Modeling of Extreme Drought Risk

Manuscript in preparation

CONFERENCES & PRESENTATIONS

Faculty of Sciences, Allama Iqbal Open University, Islamabad | 02/02/2026 - 03/02/2026

1st International Conference on the Frontiers in Science: Bridging Disciplines Toward a Sustainable Future

Presented: "Sensitivity of Probabilistic Distributions in Construction of the Standardized Precipitation-Evapotranspiration Index (SPEI)."

Applied Extreme Value Theory and advanced statistical modelling to drought assessment.

School of Natural Sciences, NUST, Islamabad | 27/11/2025 - 28/11/2025

4th International Conference on Recent Trends in Statistics and Data Analytics

Presented: "Precipitation-evapotranspiration index sensitivity to choice of probability distribution in drought assessment."
Evaluated distributional choice for drought classification across multiple time scales.

Rawalpindi Women University, Rawalpindi | 14/11/2024

3rd International Conference of Sciences: Revamped Scientific Outlook of 21st Century, 2024

Presented research on "Bayesian Modeling of Extreme Drought Risk."

Air University, Islamabad | 09/05/2024

1st International Conference on Recent Trends in Statistics Data Analytics with Applications in Natural Sciences

Presented research on "Estimating Drought Risk through Classical and Bayesian Modeling."

NUST, Islamabad | 14/12/2023 - 15/12/2023

2nd International Conference on Recent Trends in Statistics and Data Analytics

Rawalpindi Women University, Rawalpindi | 15/11/2023

2nd International Conference: "Revamping Scientific Outlook of 21st Century, 2023"

WORKSHOPS

Pakistan Scientific & Technological Information Centre (PASTIC), Islamabad | 22/07/2026 - 23/07/2026

59th Training Workshop on Research Tools & Techniques - SPSS

Participated in a two-day training workshop focused on SPSS-based research tools and techniques.

PASTIC, QAU, Islamabad | 18/08/2025 - 22/08/2025

Research Design, Data Analysis, & AI Tools - SPSS

Training in qualitative, quantitative, and mixed-method research; SPSS, NVivo, Python and Weka; literature management, LaTeX and AI-assisted research tools.

SPiE, QAU, Islamabad | 14/07/2025 - 18/07/2025

Artificial Intelligence & Machine Learning

Practical exposure to supervised and unsupervised machine learning, model building, evaluation, ethics and real-world AI applications.

PASTIC, QAU, Islamabad | 15/04/2025 - 17/04/2025

Artificial Intelligence & Data Science - Advancing Research Across All Sciences

Explored machine learning, big-data analytics and AI applications for scientific research and innovation.

SKILLS

Technical Skills

SPSS
R / RStudio
Python
Microsoft Excel
Microsoft PowerPoint
Overleaf / LaTeX
Data Analytics

Professional Skills

Analytical thinking
Communication
Decision-making
Leadership
Teamwork
Research support
Statistical modelling

LANGUAGE SKILLS

Urdu - Mother tongue

English - C2 proficiency in listening, reading, writing, spoken production and spoken interaction

HONOURS & AWARDS

2016

Merit-Based Laptop Award - Prime Minister of Pakistan
